

FAASTeam presents:

## **Monthly IMC Club Meeting - Lost in the Storm**

You are doing an IFR flight with your instructor in actual IFR conditions. It's proceeding according to the plan until it doesn't. You are having trouble maintaining altitude in turbulence and heavy rain. Updrafts and downdrafts are pushing you all over the sky. Now what?

Let's discuss alternatives and options IMC Club, through its nationwide chapters, provides organized "hangar flying" focused on building proficiency in instrument flying. Believing that safety and proficiency are developed through education and experience. Monthly meetings use real world scenarios to engage our members and allow them to share and build their experience. For IFR pilots, IFR students and anyone thinking about flying in the clouds. Bring iPad or other device to view instrument procedures. Click on the link below and register TODAY.

## Event Details

**Wed, May 10, 2023 - 19:00 EDT**
